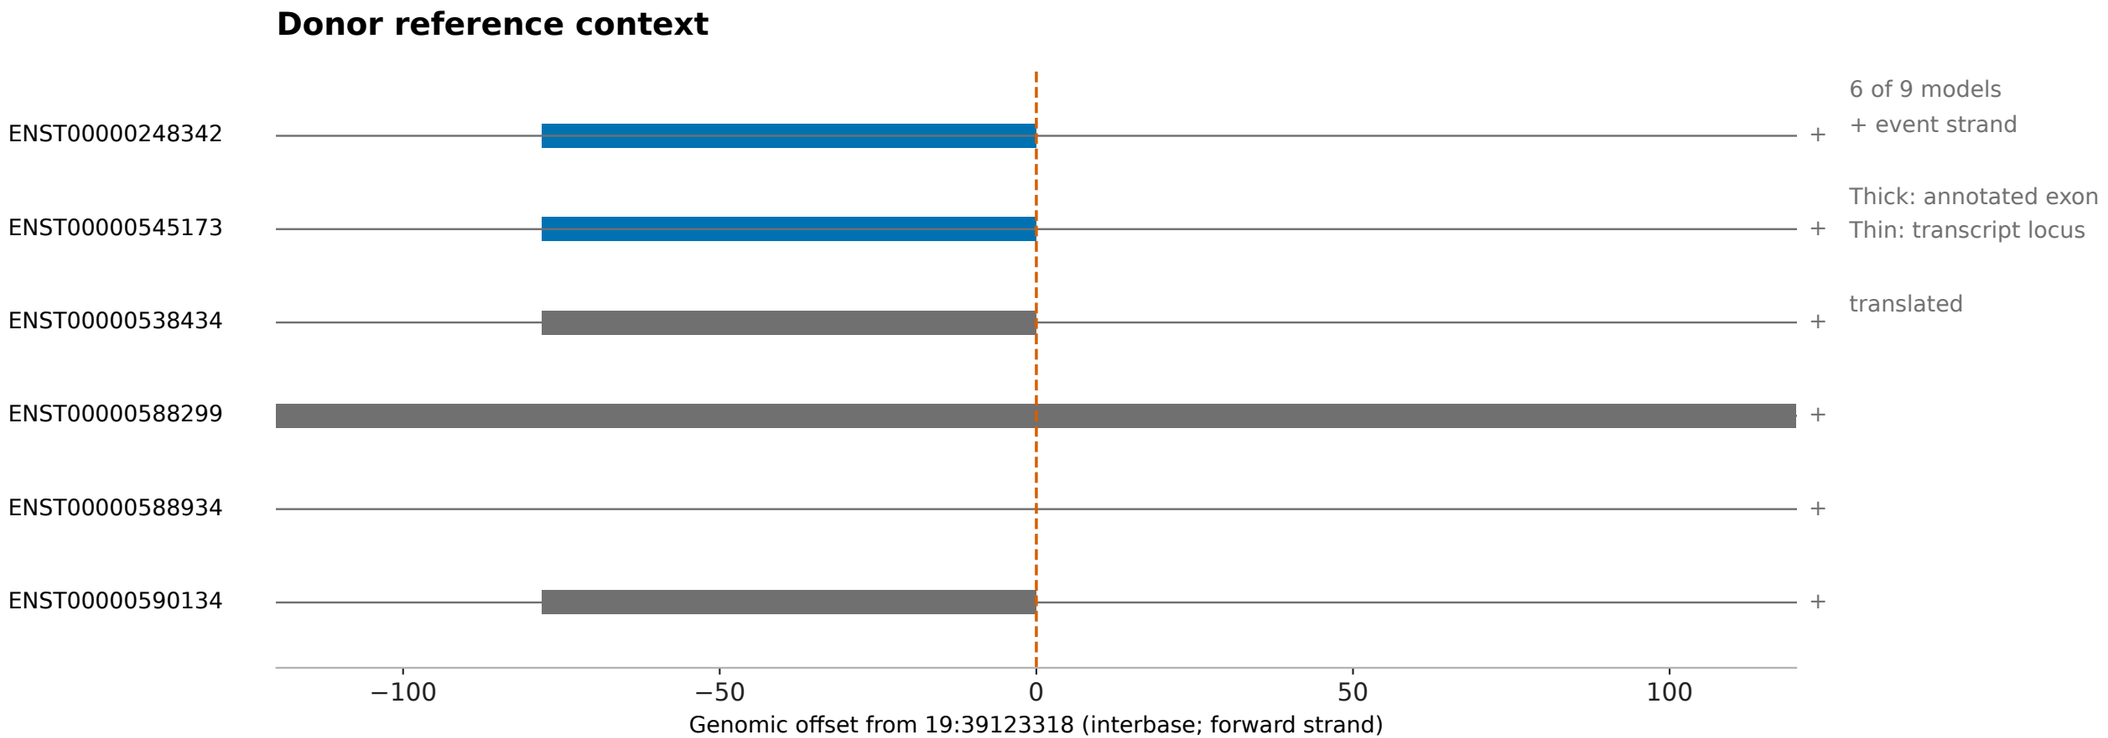
Blue: donor RNA
Green: acceptor RNA

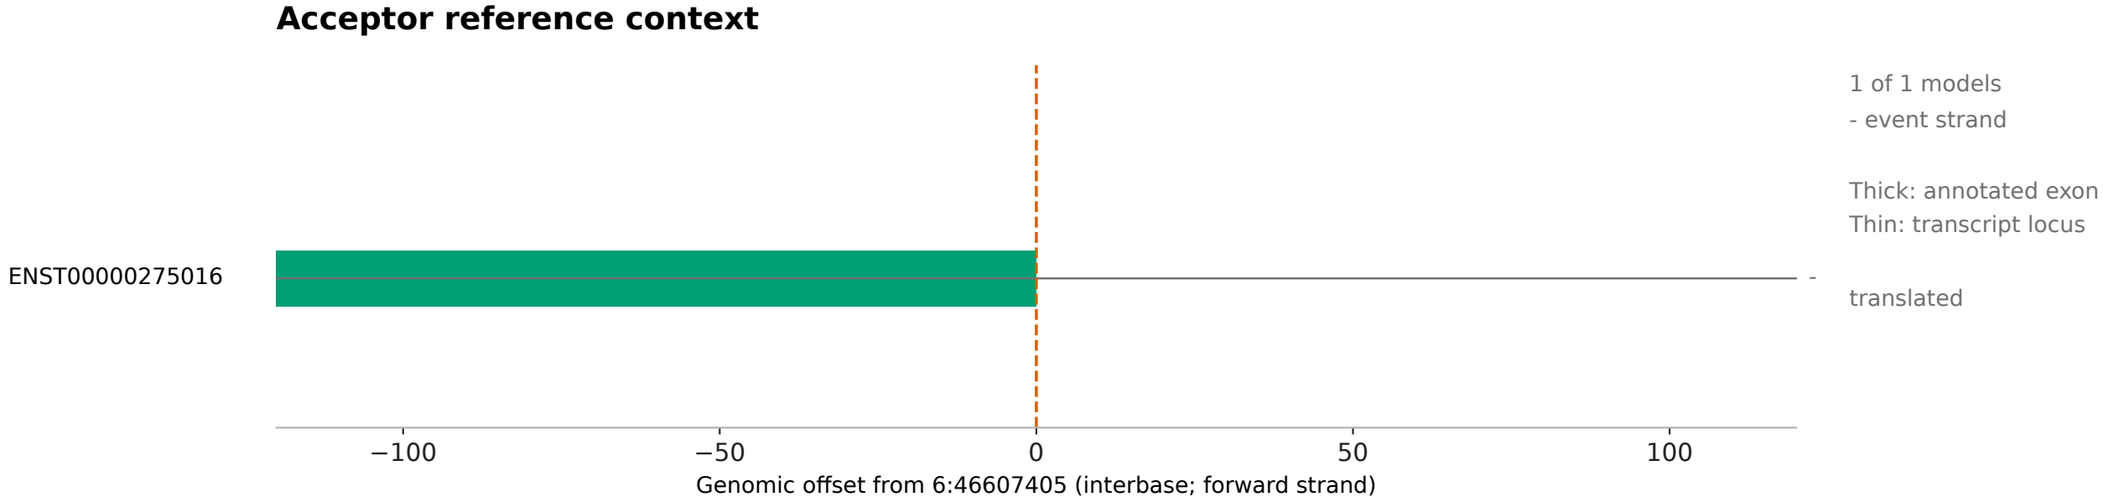
TGCTCGGGGATCTGTCGG | CATCAATTCCAAAGAATG

Observed junction sequence; counts describe this supplied hypothesis, not total event abundance.

EIF3K / CYP39A1 HCC1395

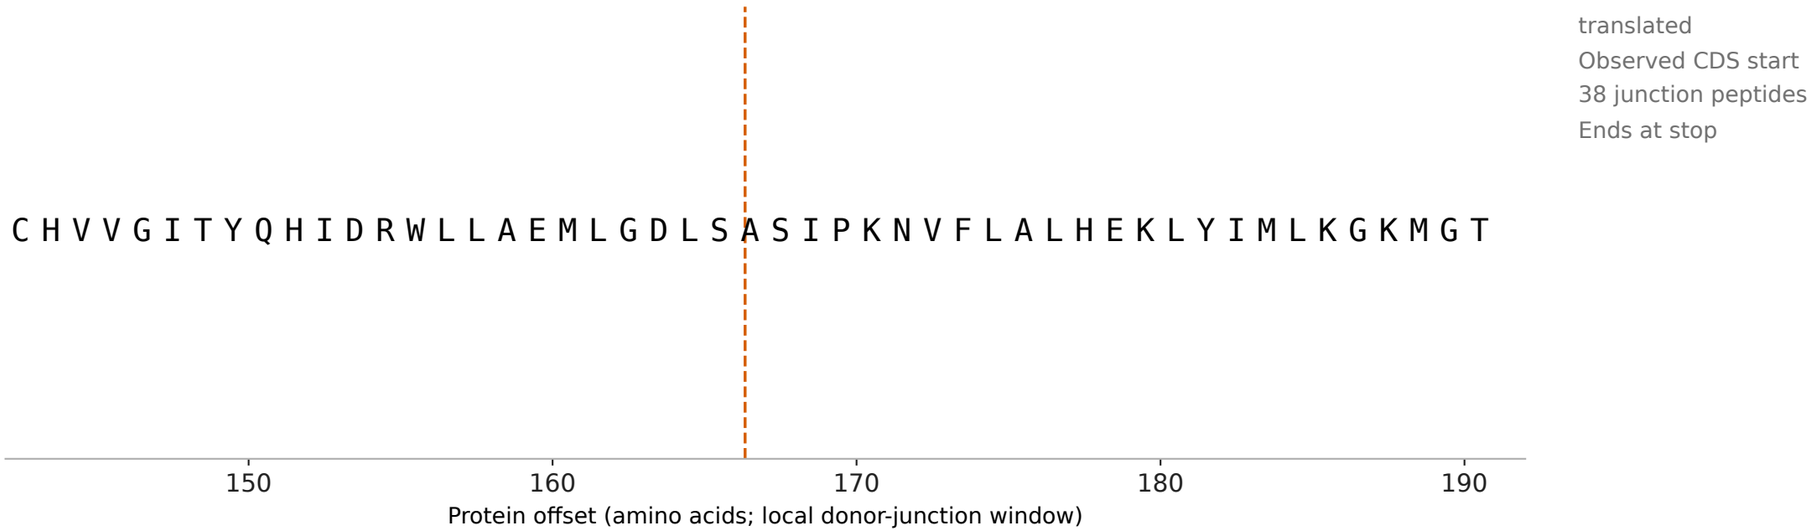


EIF3K / CYP39A1 HCC1395



EIF3K / CYP39A1 HCC1395

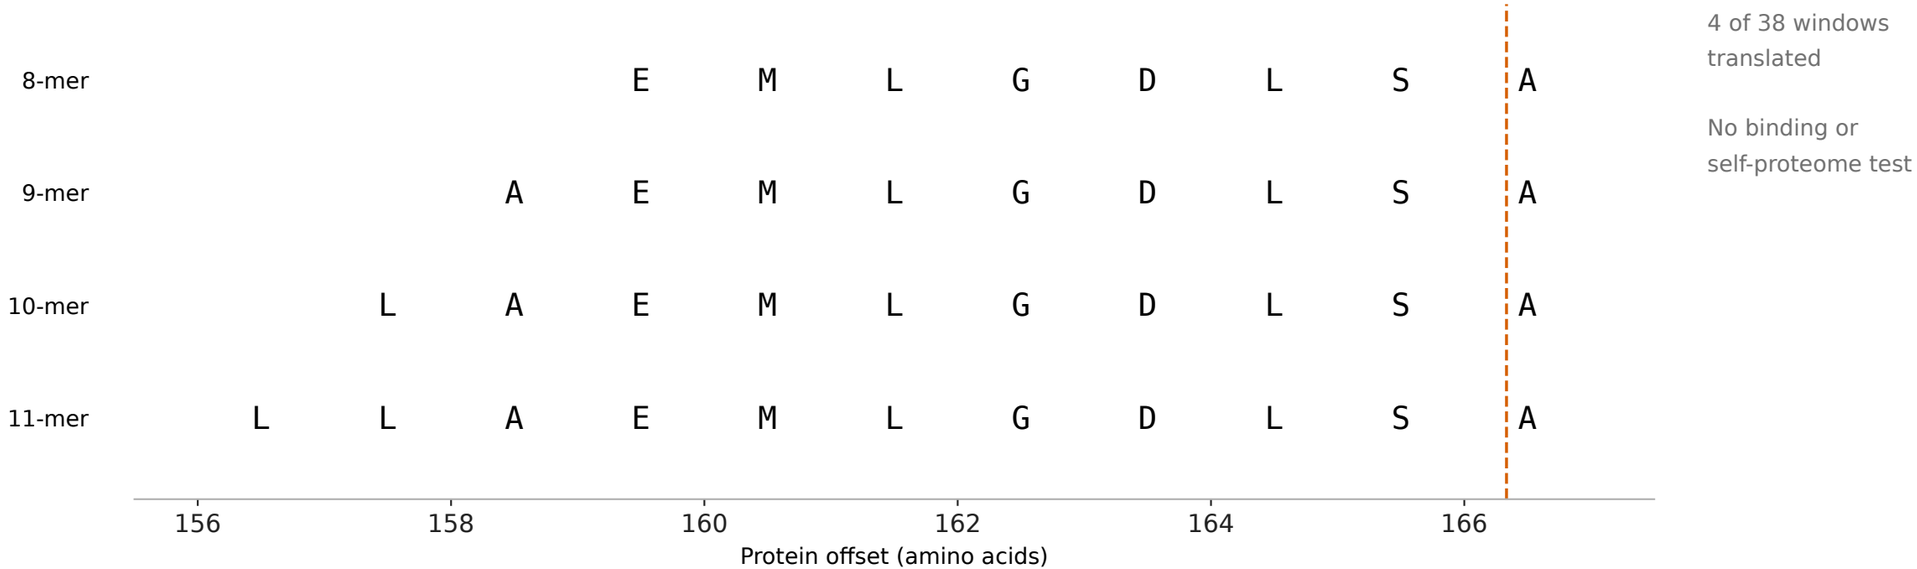
Protein hypothesis 1



No proteome-novelty or protein-expression claim. Alternative hypotheses are not ranked.

EIF3K / CYP39A1 HCC1395

Junction-spanning peptide examples



4 of 38 windows translated

No binding or self-proteome test

A mixed junction codon counts as spanning. These are sequence windows, not validated neoantigens.
